

This feature allows instructors to track student progress. Statistics are gathered for each course a student is enrolled in.

1. From the Control Panel, Click Evaluation, Select **Performance Dashboard**.

Performance Dashboard

The Performance Dashboard provides an up-to-date report on the activity for all students. Information appears in a table format. Click the arrow in the header row of a column to sort the table data by that column. [More Help](#)

The class roster appears, with various information listed for each student:

- The user's Last, First, and Username are listed.
- The Role this person holds will display (Student, Instructor, Grader, etc.)
- Last Course Access shows the time and date of last entry into the course, while the Days Since Last Course Access indicates how long it's been since a student last looked at your course. This is a convenient method for checking on student involvement.
- The Review Status link shows you the total number of review items. In addition, you can click on the number to display visibility and review status information.

Review Status: Annie Gaicho

The list below contains content items with the visibility status as well as review status for items that have Review turned on.

Content Item	Visibility	Review Status
/Student Resources/Grammar and Punctuation Tips	Visible to this user	Reviewed
/Student Resources/Internet Research Guidelines	Visible to this user	Not Reviewed
/Student Resources/Substantive Discussion Participation Criteria	Not visible to this user	Not Reviewed

- The Adaptive Release link shows the rules applied to this user based on all course items. This allows you to monitor a specific student's path through the course. By browsing through various folders, you can check whether an item is visible or invisible to that student, or the student has reviewed or not reviewed an item.
- The Discussion Board link displays posting statistics, including forums posted to, number of forum posts, and more.
- Early Warning System shows the number of warnings and the number of total rules that may trigger a warning. Clicking on the data in this column will open the Early Warning System data for a particular student. The Early Warning System column will only display if the tool is turned on in the course.
- View Grades is a quick link to the Grade Center.
